

IDONIAL was established in 2019 as a result of the merger of the ITMA and PRODINTEC centers with 28 and 14 years of experience respectively, which have opted to join efforts to address new challenges and provide our customers with tailor-made solutions related to the development of materials, advanced manufacturing and the digital industry through technological development and innovation.

For this purpose, the centre has a wide technological offer oriented to the needs of companies applicable to a wide range of industrial sectors and with an expert and multidisciplinary team with an interest in development and innovation.
